APPENDIX B.

Provertiwar Variation in Population.

[Note :—The Provertiwar figures for 1881 and 1891 are taken from the Census Reports for those years and those for 1875 from the Government Almanac for 1877. The variations between 1875-1881 and 1881-1891 are not entered in the Table as the 1881 figures for Provertia do not appear to be correct. The total population of any Taluk arrived at by adding the figures for its component Provertis does not tally with the total recorded in the body of the 1881 Census Report and adopted therefrom for Provincial Table II of this Census. It is not possible to know which Provertis the incorrect figures relate to.]

As, in regard to Provertis entering into the constitution of Towns, separate figures for the urban portions in the several Provertis have not been recorded at the 1891 Census, the Proverti totals of the urban and rural figures could not be made up for that Census. In these cases the rural population of such Provertis given in the 1891 Report is added to the total urban population recorded and the result entered within brackets.]
